Case Summary

I was called to the above residence for a stillbirth at the residence of the Followers of Christ. I spoke with the grandmothers and they told me that the mother had been in hard labor for a couple of days and that the baby had been born breech, butt first. I was told that this was the first live birth and that the mother had had a miscarriage two years prior. I was told that the baby was full term and that the pregnancy was uneventful. The mother of the baby told me that during the hard labor the baby stopped moving, approximately 2 days prior, and had not moved since. I checked the baby and she was full term with no anomalies.
